NAPLAN

Next month families of students who participated in NAPLAN will receive their child's results.

STEM SHOWCASE

ALL classes have been working on their STEM activities. A major theme being explored is STEM jobs with some variations along the way. We look forward to sharing our learning with you.

At this stage parents will be welcome to come into classrooms. There will be a schedule set up which will help us manage numbers in buildings. We will begin the day with an assembly where a brief outline of what each class will highlight what they be sharing will back in the classroom.

As you would be aware, 1 day can make a significant difference and change all our plans at short notice.

We intend to proceed pending a change of plans following any health or department directions or restrictions.

Notification of any changes will be sent through Skoolbag App and class messaging platforms.

BOOK WEEK

Classes are participating in Book Week activities in classes through 'zoom' author interviews, library visits, and book studies. We have a competition running regarding the oldest book that anyone has in their collection. Thanks to those who have brought in one of their prized old books.

We are holding our book parade next term as we have many students out on various sport events at the moment. A date will be sent home to you so that you can prepare costumes if needed. We are hoping to invite parents to dress up as well and join us, barring any restrictions being in place at the time.

SAPSASA

Well done to our basketball teams – boys and girls. It was a great day with some fierce competition. The boys' team made it to the finals and missed out by 1 point to Emmanuel College. A supreme effort by all.

Our students showed exemplary behaviour and sportspersonship. A great day was had by all.

YMCA OSHC & VACATION CARE Newsletter

Woodville YMCA OSHC

Newsletter Period – Winter vacation care and Term 3 2021

Dear families,

The Woodville OSHC Team hope you have been well and are staying safe!

We would like to share some of our exciting experiences and fun that we had during the winter Vacation Care period!

Children brainstormed ideas about where they would like to do during the holidays and staff used this information to create the vacation care program. The excursions we attended were; roller skating and park visit at St Clair Recreation Centre, we saw a science show, we watched the new Space Jam movie in the cinemas and had fun at Flip Out!

It was exciting to see so many families throughout the vacation care period, keeping ourselves and the children busy!

We had the police visit us to teach us about how to keep ourselves safe – the children were excited to sit in the police car at the end of the session!

We have been learning about how to look after ourselves. We started with a discussion about keeping ourselves healthy, both mentally and physically with a range of activities to help educate us. We made a human sized food pyramid with our play food to learn about the food groups and what we should be putting into our bodies. We finished this unit last vacation care with a visit from the police to educate us about keeping ourselves safe within the community and online. This term we have continued to focus on keeping ourselves healthy with a positive mindset – learning how to positive self-talk and create our own positive affirmations.

Our team is continuing to grow, we have 4 new staff members. Amelia is studying Occupational Therapy, Angel works across two oshc services, Bonnie is studying a Bachelor of Social Work and Jake is studying his Bachelor of Primary Education.

6-9-2021 - Show Day - come and try our Mini-Show and take home your very own showbag.

13-9-2021 - Nature night - explore the local area and then make a "Hairy Head" to take home and watch grow!!

Flinders Park Scout Group offers activities for young people aged 5-15 years and a modified program via Zoom whenever restrictions are actioned in SA. Call now to book your place.

Contact our Group Leader Fiona Ryan for more information:

gl.flinderspark@sa.scouts.com.au or ph 0417865852

How does exercise affect mental health and wellbeing?

Physical activity promotes many aspects of child and adolescent development, including social and emotional skills, as well as physical development of motor skills. It also supports mental wellbeing. Physical activity:

- can increase levels of serotonin and endorphins; the neurotransmitters involved in regulating and improving mood
- promotes sleep – which also helps regulate moods, increase energy levels and improve memory and learning
- increases the connections between the brain neurons, which improves memory and learning capacity
- pumps blood to the brain to boost mood, concentration and alertness
- promotes relaxation by reducing skeletal muscle tension
- provides children and young people with an outlet for excess energy and frustration, which relieves tension
- provides an opportunity for children and young to socialise and meet new people, reducing loneliness and isolation
- improves motor and cognitive skills, which boosts self-esteem
- distracts children and young people from negative thoughts.

These benefits also serve to improve classroom behaviour and promote a more positive learning environment.

SCHOOL HOLIDAY PROGRAM

SUPER KIDS OF ADELAIDE GET READY FOR OUR SCHOOL HOLIDAY PROGRAM AND SUPER SIDEKICK TRAINING.
